

Thursday - Week 4

Consuming a REST service

HTTP request methods

- GET
- HEAD
- POST
- PUT
- DELETE
- ...
- <https://developer.mozilla.org/en-US/docs/Web/HTTP/Methods>

Postman

- We can use this to simulate request AND inspect the headers
- Examples

GET https://anapiofireandfire.com ●

GET https://api.thecatapi.com/v1/ ●

+

...

No Environment ▼

https://anapiofireandfire.com/api/characters/583

```

Thursday - Week 4

Cross Origin Resource Sharing (CORS)

CORS

- Explained:
<https://developer.mozilla.org/en-US/docs/Web/HTTP/CORS>
- Quick Guide:
<https://spring.io/guides/gs/rest-service-cors/>

CORS

- Even Quicker Guide!
- It's an annotation:
@CrossOrigin
- You can also use CORSFilter manually...
<https://howtodoinjava.com/servlets/java-cors-filter-example/>

Extras!

Some other topics of interest

Cookies!

- TDLR; It's a parameter annotation

```
//..  
@RequestMapping("/hello.html")  
public String hello(@CookieValue("foo") String fooCookie) {  
  
    //..  
}
```

- <https://viralpatel.net/blogs/spring-mvc-cookie-example/>

Sessions

- We will use cookies / sessions more during the JavaScripts
- But it is 100% feasibly to do with Java too
- <https://examples.javacodegeeks.com/enterprise-java/spring/session/spring-session-tutorial/>
